Differences That Matter.

Quantitative		Qualitative
Delta-9-THC	Brompheniramine	Amitriptyline
Carboxy-delta-9-THC	Carisoprodol	Fluoxetine
Amphetamine	Chlorpheniramine	Imipramine
Methamphetamine	Cyclobenzaprine	Nortriptyline
MDA	Dextromethorphan	Trazodone
MDMA	Diphenhydramine	α-Hydroxymidazolam
MDEA	Doxylamine	Atropine
Cocaine	Fentanyl	Benzotropine
Benzoylcegonine	Ketamine	Bupivacaine
Cocaethylene	Meperidine	Chlordiazepoxide
Norcocaine	Meprobamate	Chlorprothixene
Morphine	Methaqualone	Clozapine
Oxymorphone	Methocarbamol	Haloperidol
Hydromorphone	Pheniramine	Hydroxyzine
Codeine	Promethazine	Levorphanol/Dextrorphan
Oxycodone	Tramadol	Lidocaine
6-Acetylmorphine	Zaleplon	Pentazocine
Hydrocodone	Zolpidem	Phentermine
Clonazepam	Norketamine	Quinine
Oxazepam	Norfentanyl	Ropivacaine
Lorazepam	Normeperidine	Thioridazine
Flunitrazepam	Buprenorphine	
Nitrazepam	Norbuprenorphine	
Diazepam	Sufentanil	
Temazepam	Phenobarbital	
Alprazolam	Phencyclidine	
Butalbital	Methadone	
Pentobarbital/ Amobarbital	EDDP	
Secobarbital		

UNKNOWN DRUG PANEL (HAIR)

Quantitative results are reported in the range of LOQ-ULOQ

Limit of Quantification (LOQ) of a drug is the lowest amount of drug that can be quantified with acceptable precision and accuracy.

We will report any values greater than Upper Limit of Quantification (ULOQ) as > values. For example, if the ULOQ is 1,000 (pg/mg), and the actual result is more than 1,000 pg/mg, we will report the confirmed amount as > 1,000 (pg/mg).

Qualitative Positive Results are reported as “Detected”

Note: Hair testing provides a historical picture of drug use in previous weeks or months depending on the length of hair. Hair testing results in a segment indicate the amount of drug accumulated in hair during the growth period of that segment. Drug incorporation in hair is dependent on the amount, duration, and frequency of drug use and is affected by hair treatments, such as hair bleaching, conditioners, and the use of hair spray.

Collection Requirements:

Hair: 200 hair strands
(Width of Sharpie)

EXPERTOX'S ACCREDITATIONS/CERTIFICATIONS:

College of American Pathologists (CAP)
Clinical Laboratory Improvement Amendments (CLIA)
Drug Enforcement Agency (DEA)
ISO/IEC 17025:2017 certified
