single source laboratory solutions

*Turnaround Times (TAT) are posted for optimal operational conditions. There may be delays due to unforeseen weather conditions, equipment failure, supply chain shortages, & emergency situations (i.e. hurricanes..). ExperTox strives to meet the listed TAT for all tests. ExperTox is under constant revalidation of all scientific methods. At times, the less popular tests ordered may have a delay if the laboratory is required to perform a validation. You will be notified of events that could delay your results upon the samples arrival to ExperTox.

Hair samples are tested for a 90-day time frame unless otherwise stipulated on the Chain of Custody received with the sample. ExperTox offers segmentation for hair samples, that can be ordered in 30 day increments. Please call customer service at 281-476-4600 or email customerservice@expertox.com if you need assistance with a segmented sample and what to denote on the Chain of Custody.
